

# Coloured Quartz Render for concrete swimming pools

  
**dura**Quartz®

SHIMMER RANGE

## Enduring Beauty

**duraQuartz®** is the ultimate surface finish for concrete swimming pools. Made almost entirely of quartz, one of the hardest natural occurring minerals, this premium range of beautifully coloured renders includes shimmering flecks throughout for a pool that sparkles and dazzles.

## Strength & Durability

**duraQuartz®** is made right here in Western Australia using only the highest quality materials and has been purpose designed to suit local conditions. Even after acid washing and years of exposure to pool chemicals and sunlight, a pool with **duraQuartz®** will not bleed or fade and will maintain its stunning colour and a smooth, even surface that is sure to impress.

## Individualise your Pool

From the deep blue of the ocean to the brilliant green of a natural rock pool, **duraQuartz®** is available in a vibrant range of six colours, each including a unique shimmer to create a beautiful visual effect in your pool water.

Remember that shape, depth and pool surrounds can all influence the final colour of your pool. When selecting your **duraQuartz®** finish always consult with an approved pool builder who will assist you in selecting the perfect colour to suit you, your outdoor area and home.

## Colour Collection

Select from the **duraQuartz®** range of coloured quartz renders for naturally beautiful, shimmering pool colour that lasts.
